EU EIP Highlights

## [Traffic Management in a changing world - Save the date](#)

UTRECHT - 14/15 November 2018

**SAVE THE DATE**

***Traffic Management  
in a changing world***  
Digitalization, Multimodality, Smart  
Infrastructures

[www.ITSforum2018.eu](http://www.ITSforum2018.eu)

The focus of the Forum will be on Traffic Management and its current challenges. The European ITS Platform and CEF ITS corridors are grounded on experiences and contributions from road authorities/road operators, which have a 24/7 task to management the traffic on their road network.

## EU EIP Reports

## [Arc Atlantique 2 Evaluation Plan](#)

At the start of the Arc Atlantique2 action an evaluation plan is worked out. The plan is based on the output of the EU EIP Activity 5. The EU EIP KPI Definitions as produced in version 10.0 – 8 February 2017 are used. This document has defined common KPI for ITS deployment and benefit to support evaluation reporting in conjunction with Member States and ITS Corridors and in alignment to the EC KPI shortlist.

## Numbers of ITS in Connecting Europe Facility

This column of the Newsletter wants to pinpoint figures as results of the European ITS Platform or CEF ITS corridors on Trans European Road Network.

### CEF ITS TOWARDS MULTIMODALITY

Eight are, in fact, the new implementing bodies that are taking URSA MAJOR neo toward the intermodality: 6 harbors (Gioia Tauro, La Spezia, Livorno, Ravenna, Trieste, Venezia), a freight village (Verona) and RAM (subsidiary of the Italian Ministry of Infrastructure and Transport devoted to motorways of the sea).

## News flash

- 1) 2018 - Year of Multimodality - The Commission is committed to reducing CO2 emissions, congestion and air pollution to improve the quality of life of European citizens and to reach the goals set by the Paris Agreement. At the same time, we want to ensure that European transport is safe and our industry remains competitive on the global market. To support these aims EU Transport Commissioner Violeta Bulc has called for 2018 to be the "Year of Multimodality" - a year during which the Commission will raise the importance of multimodality for the EU transport system. More information in this [page](#)
- 2) On 8 March 2018, ITU and UNECE held a Symposium on the Future Networked Car (FNC-2018) within the [88th Geneva International Motor Show](#).
- 3) The final CODECS City Pool workshop was hosted by Dublin City Council on 22 March 2018. The workshop was focus on C-ITS, including the deployment status and prospects today, where can C-ITS bring benefit for transport authorities. More details can be found [here](#)
- 4) The 11th ASECAP Road Safety Conference was held on 20th March 2018 in cooperation with the European Parliament (in Biblioteque Solvay). For information, please follow this [link](#)
- 5) The European Commission organized a Workshop on cross-border testing in the field of Cooperative, Connected and Automated Mobility (16 March – Brussels – Berlaymont Building).
- 6) ITU published a video concerning ["The Power of Connected Cars"](#)
- 7) Intermodality at centre of UNECE policy debate: Young Tae Kim moderates high-level policy segment. Follow this [link](#).

## Save the date

May 16th-17th-18th 2018

EU EIP Member States  
Supervisory Assembly 2018 -  
Workshop on ITS Roadmap

Bruxelles - Belgium

**The meeting of the Platform Member States Supervision Assembly** is called for May 17th and 18th. A workshop to facilitate the development of road ITS deployment plans related to CEF corridors is organized the day before (May 16th in Bruxelles, starting 13.00h). The workshop was focus on measures supporting a corridor perspective in ITS deployment; incentives and other drivers, and which ITS service packages that are supporting a corridor perspective. For any questions on the workshop, feel free to contact: [jonas.sundberg@sweco.se](mailto:jonas.sundberg@sweco.se) [jonas.sundberg@sweco.se](mailto:jonas.sundberg@sweco.se). For any question on Member States Supervision Assembly, feel free to contact [direzione.scientifica@sina.co.it](mailto:direzione.scientifica@sina.co.it) [direzione.scientifica@sina.co.it](mailto:direzione.scientifica@sina.co.it)

June 11th 12th 2018	2nd Symposium on Management of Future Motorway and Urban Traffic Systems (MFTS2018)	Ispra (VA) - Italy
---------------------	---	--------------------

**On two days, 11 and 12 June 2018**, representatives of policy, industry and science will discuss the latest advances in the field of traffic management. For any questions, abstracts submission and registrations, please mail to [JRC-MFTS-2018@ec.europa.eu](mailto:JRC-MFTS-2018@ec.europa.eu) [JRC-MFTS-2018@ec.europa.eu](mailto:JRC-MFTS-2018@ec.europa.eu) for information please refer to this [link](#)

April 9th 2018	Workshop on Monitoring and Harmonisation of Single Point of Access	Warsaw - Poland
----------------	--	-----------------

**International conference entitled "National Access Point as a tool to support the quality of travel"**, organized on 9 April 2018 at the Novotel Warszawa Centrum hotel in Warsaw (Marszalkowska 94). The patronage over the event was taken by the Ministry of Infrastructure, Ministry of Investment and Economic Development and the Project Consortium EU European ITS Platform. The organizer of the conference is the General Directorate for National Roads and Motorways, and the coordinator of the Intelligent Transportation Systems Association ITS POLSKA. The conference will present the effects of the work of selected European countries over the National Access Points to the traffic conditions data (KPD), with particular reference to the Polish NAP launched on 6 December 2017, implemented as part of the European CROCODILE 2 project. The organizer provides simultaneous Polish-English translation. - please refer to this [link](#)

-----------------	--	---------------------

**DG MOVE** is organising a dedicated stakeholder workshop to present and discuss the preliminary findings of the evaluation of ITS directive with experts and other stakeholders. - [link](#)

# ITS World news

European ITS platform collects updates on [Intelligent Transport Systems](#), [on smart mobility](#) and [ITS News from Europe](#) around the World in several languages. Here is a small selection:

- [Access to car data – the new battleground that risks consumer choice](#)
- [EU EIP and TISA publish two harmonised Declarations of Compliance for Real-time Traffic Information](#)
- [IBTTA's All-Electronic Tolling, Managed Lanes Technology Summit's Future Roadmap](#)
- [Early news in 2018 for C-ITS standards](#)
- [US-CERT study predicts machine learning, transport systems to become security risks](#)
- [System for vehicle-infrastructure Interaction Assets health status monitoring](#)
- [Is Galileo inside your phone?](#)
- [Will road vehicle automation help solve urban transport problems?](#)
- [Mack Trucks Touts Over-the-Air Uptime](#)
- [Toyota launches £2bn autonomous vehicle software division](#)
- [Rethinking urban energy: How Europe is leading the way](#)
- [Smart road e auto a guida autonoma, l'Italia fa un passo avanti](#)
- [Verona è la prima città d'Italia a dotarsi del servizio di "guida cooperativa"](#)
- [Univaq, in arrivo FabSpace 2.0, il nuovo Fab Lab sulle tecnologie satellitari](#)

- [Mobbiele telefoons praten met elkaar](#)

## Did you know about [www.its-platform.eu](http://www.its-platform.eu)

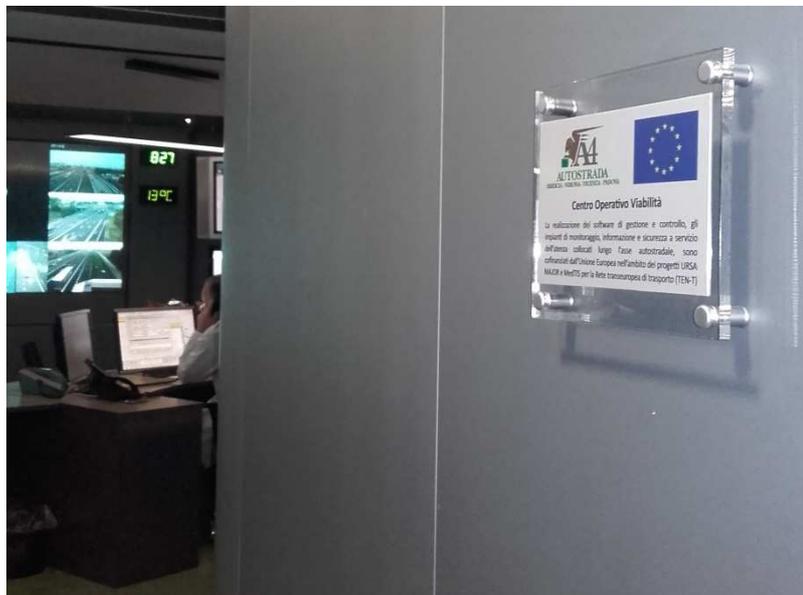

Did you know that European ITS platform is performing activities in the field of evaluation of ITS results? A wide range of information is available and even a helpdesk is active.

## Let's close with a picture

### Traffic control center of A4 Brescia-Padova (Italy)

Beneficiaries of EU funding, have the legal obligations to acknowledge EU funding and display the EU emblem in the information and communication material (CEF Article II.7 of the Grant Agreement). A4 motorway installed a devoted panel. This picture is a nice example on how to show the European Union emblem.
