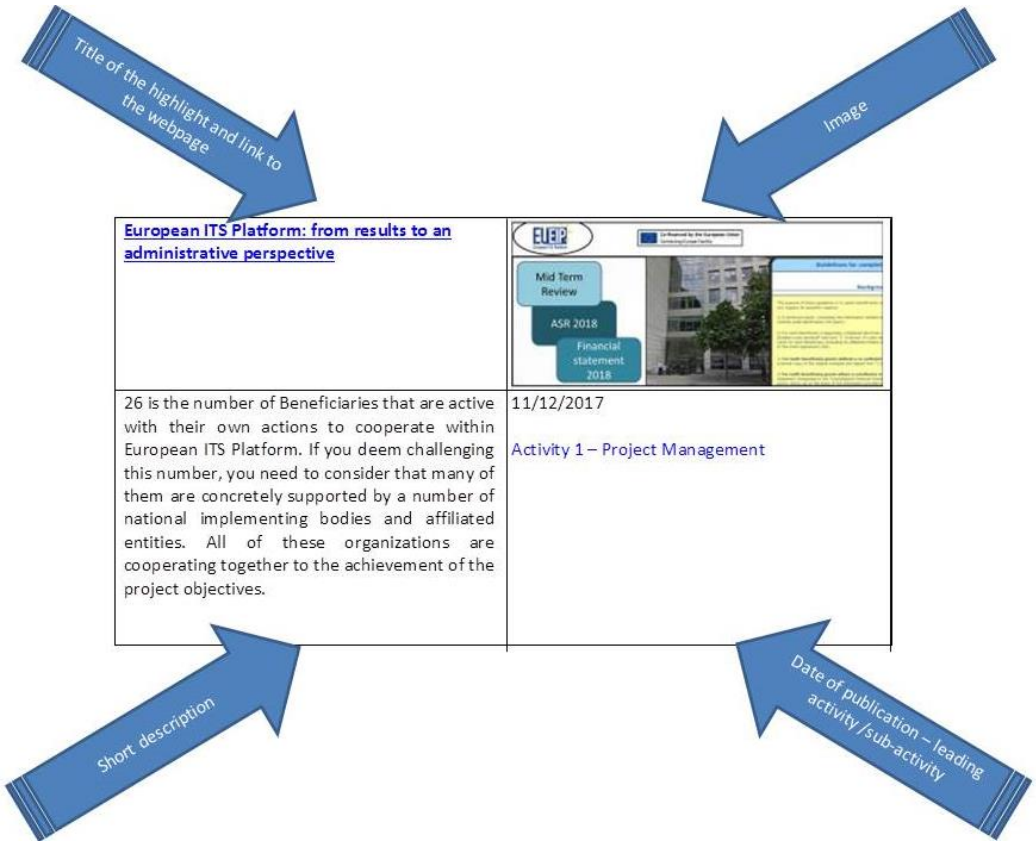
Highlights on activities of the European ITS Platform

This section showcases the results of the platform as described thanks to the articles published in the period.

Please find hereinafter the reading criteria.



Facts are listed in chronological order and classified into three categories:

- Section 1 – Facts on direct actions of the platform
- Section 2 – Communication liaise with Corridors: news published in Corridor sections of the website its-platform.eu
- Section 3 – Other facts and announcements

Other information can be directly achieved through the hot link to the website.

To the purpose of this document only facts published in the years 2015-16 are considered.

Section 1 – News on direct actions of the platform

[Insights from the first EU EIP SA 4.2 Facilitating Automated Driving Workshop]

18/10/2016

The event was hosted by DGT on 21-22 September in Madrid, and covered two aspects of automation: Day 1 focused on autonomic and automated roadside ITS, and Day 2 the requirements of automated driving for road authorities and operators. The aim of the workshop was to present current developments and ideas, encourage discussion and collect stakeholder feedback. Both the public and private sector were well represented as participants and presenters.

EU EIP Sub-Activity 4.2

[EU EIP A3 - Intermodal Route Planner presented during the International Silk Road conference in Vilnius and Klapeida]

18/10/2016

The international conference “Silk Road connecting China with Europe” took place in Vilnius and Klaipeda on the 5th and 6th of September 2016. It gathered over 70 participants from eight countries: Germany, China, Lithuania, Sweden, Russia, France, Latvia and Belgium.

EU EIP Activity3

[EU EIP A2 Road Operator Strategy Workshop on 8th and 9th September 2016]

04/10/2016

The EU EIP Activity 2 Road Operator Strategy Workshop "(C-)ITS deployment challenges and opportunities" has successfully been held in Düsseldorf, 8th to 9th of September 2016. The workshop brought together the actors - in particular the road operators - in EU EIP as well as all ITS Deployment Corridor projects.

[Intermodal Route Planner was presented to Wim van de Camp (MEP)]

19/07/2016

Intermodal Route Planner demonstrated to Wim van de Camp (European Parliament)

EU EIP Activity 3

Successful East-West Networking Meeting in Tallinn

05/07/2016

Given the fact that the Eastern Member States have a much shorter history in ITS implementation, one of the key objectives of the East-West Corridor activities is to establish a cooperation community between the eastern and western countries on the East-West Corridor. The East-West Corridor runs from Ireland and the UK via the Benelux, Germany and Poland to the Baltic States and Finland.

EU EIP Activity 3

EU EIP Activity3: "Feasibility study East-West Corridor and first pilot implementation" kick-off meeting

03/03/2016

On 18 September 2015 the kick-off meeting of the Activity 3 - *"Feasibility study East-West Corridor and first pilot implementation"* of the EU EIP project took place at the Ministerium für Bauen, Wohnen, Stadtentwicklung und Verkehr des Landes Nordrhein-Westfalen in Düsseldorf (Germany). The meeting was attended by 11 participants from seven different Member States. The kick-off meeting was the first event of the new EU EIP project, the European ITS Platform, which will run until 2020.

URSA MAJOR 2 / EWmap Webinar

22/08/2016

On 6th of July 2016, the first EWmap webinar was held. 14 attendees, representing 6 member states, participated in web conference and have been informed about the organisational changes in EWmap and the general usage of the tool.

URSA MAJOR 2

URSA MAJOR TMP template ready for use

02/06/2016

URSA MAJOR 2 is building on the results of a Taskforce in the predecessor project, that led to the development of a template for Traffic Management Plans. The combined expertise of the URSA MAJOR 2 practitioners from the beneficiaries DE, IT and NL – strongly supported by the partners from Switzerland – created a powerful tool that now will be used throughout the USRA MAJOR network for new TMPs (first example is the Gotthard TMP); but also all existing TMPs will be captured.

URSA MAJOR 2

UM2 Stakeholder Cooperation Workshop (findings available)

06/04/2016

The URSA MAJOR 2 Stakeholder Cooperation Workshop "The interface from TMPs to navigation services" – chaired by Hessen Mobil and held in the Frankfurt House of Logistics and Mobility (HOLM) on 28 April 2016 – brought together approx. 30 stakeholder experts from seven European countries to discuss the deployment of an interface from road operators' Traffic Management Plans (TMP) to navigation services.

URSA MAJOR 2

Successful Workshop Single Point of Access – result of joint cooperation Next-ITS 2 and EU EIP

30/03/2016

The workshop aimed at giving an overview on the varying solutions of the national Single Points of Access (SPA) across the NEXT-ITS 2 countries addressing the different Delegated Acts.

NEXT-ITS 2 – EU EIP

[Coordination meetings within CROCODILE]

07/07/2015

Based on the first Memorandum of Understanding (MoU) – signed in the course of CROCODILE between AT-IT-HU-SI-HR – numerous coordination meetings between neighbouring countries took place in the first half of 2015. As the project CROCODILE is an important catalyst in defining the technical and legislative preconditions for cross-border data exchange, the coordination meetings have focussed on the cooperation in terms of traffic management and traffic information exchange.

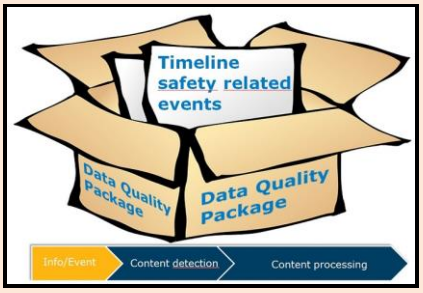
[EIP+ Quality Package for safety related and real-time traffic information services]

08/03/2016



Quality package for safety related and real-time traffic information services: EIP+ has produced a quality package for safety-related and real-time traffic information listing the recommended quality criteria and requirements for the priority actions c) and b) of the ITS Directive. The recommendations have been validated by studies in eight member states in 2015.

EIP+

[Single Point of Access activities to be continued in EU EIP project]

07/03/2016

ò

Since the publication of three ITS Delegated Regulations, the European ITS Platform (EIP) has undertaken activities to monitor the deployment of national access points, to organise workshops and to come up with practical harmonization solutions.

EIP+ Workshop SPA enjoyed great interest

08/10/2015

EIP+ Activity 3.2

EIP+

EIP+SPA Workshop: On 24 September 2015 a successful SPA Workshop took place in Bucharest about harmonization in the field of Single Points of Access (SPA) for Real-time Traffic Information (RTTI - priority action B). With 34 people from 12 different Member States this SPA workshop received high attention. The workshop covered three topics:

ITS Road Corridors and EU ITS Platform highlighted in Bordeaux

07/10/2015

On the 06/10/2015 EC and INEA organised the thematic session “smarter infrastructure” at the EC stand during the 22nd ITS World Congress in Bordeaux. Fotis Karamistos, EC DG Move - Deputy Director-General, opened the session with a short introduction highlighting the importance of harmonised ITS solutions to achieve an interconnected mobility throughout Europe. Afterwards he stayed to listen the presentations given.

ITS World Congress

[Commissioner Bulc hands over 110 million check to CEF ITS projects]

05/10/2015

The ITS projects selected under the 2013 TEN-T Calls for Proposal are highlighted with a special publication at the European Commission and the Innovation & Network Executive Agency (INEA) booth at the ITS World Congress in Bordeaux. In the morning of the first day the newly selected CEF ITS projects received from Commissioner Bulc a symbolic check representing the EU funding made available to them.

ITS World Congress

[Announcement 'Workshop Metadata' October 23 in Amsterdam/Schiphol]

18/09/2015

"The Single Point of Access (SPA) is an intermediary digital platform and it is part of 3 Delegated Regulations following priority actions B, C and E of the EU ITS Directive 2010/40/EU.

EIP+

Meeting and demonstration for the EIP+ Activity 4.1

31/07/2015

The partners involved in the EIP+ activity on Cooperative ITS services have met on 17.06.2015 in Frankfurt. The meeting was hosted by Hessen Mobil.Main purposes of the meeting were to check the progress of the different tasks of the activity and to plan the work of the upcoming months. Alongside the meeting the colleagues of Hessen Mobil demonstrated work in progress related to the Road Works Warning service in the Cooperative ITS Corridor.

EIP+

SA 4.1 - Workshop on stakeholders, value chains and work processes for ITS services

18/07/2016

In the context of the activity on quality for ITS services a workshop on stakeholders, value chains and work processes for ITS services is organised
